INSPIReD is a new organization supporting under-represented groups in STEM fields at JHU. Our goals are to promote diversity and inclusion in the sciences, build a community of support on campus, provide mentorship and opportunities for URM researchers to present their science to the community, and invite distinguished URM scientists to campus to engage us with their stellar science, as well as their personal experiences with diversity.

Everyone is invited! Please join us for our seminar on

**November 12th at 4:30 PM**

**Mudd 100**

Pizza and drinks to follow

“TBA”

**Ralph Etienne-Cummings, PhD**
